

# LIVING HER BEST LIFE

I picked Poppy up last summer from Chris and she sat next to me talking for the whole 2 hour journey! We had a proper chat and I thought "Just like a Tonk!"

I had a colour point Tonkinese many years ago and missed her wonderful character. So when TCC told me that a 2 yr old blue Tonk called Poppy was up for adoption and matched my profile, I jumped at the chance.

It was meant to be, because although I live in the Cotswolds and Christina (TCC Welfare Officer) lives in Scotland, she knew the house that I live in! Sheer coincidence but it meant that I didn't need to explain that I have an acre of garden behind the woods in the country which is what Poppy really needed.

So once she was allowed out, she was off exploring the garden and I didn't see her for the whole day. I wasn't sure if she would come back but she did come trotting home later so I knew that she would always come back for her tea.

She loves hunting, sleeping in the summer-house, in front of the fire and on my bed. She is very affectionate and talks and talks! She is almost dog like in that she will search out the Dreamies if I play hide and seek with her. She has settled in extremely well and the house is very quiet until she comes in for the night, which gets later as the days lengthen! She's a lovely companion and I'm very lucky to have her.

Poppy is now called PEARL!
